

# Investing with us has a curious side effect. You start liking graphs.

Those PowerPoint presentations where the presenter saps everyone's will to live, with graph after graph after graph? Those little numbers bottom left of the screen, page 11 of 327. Dear God, can this guy not see that everyone's gone somewhere else in their minds? Please, please can someone get me out of here.

Well, there is an antidote for this.

You see, for the past twelve years, we at Elevation Capital have been building a track record of investment success.

Our Global Shares Fund, designed for people just like yourself, focuses on creating the sort of graphs that you'll enjoy, by investing in companies like Disney, Sony, Spotify, Swatch, Airbnb, Visa, Heineken, and Estée Lauder, to name just a few.

With this strategy, the Elevation Capital Global Shares Fund has delivered net returns of +11.49% per annum over the last 5 years\*. You don't need to invest thousands of dollars upfront either. All you need to get started is an initial investment of \$100 and regular monthly contributions from as little as \$25 a month.

To learn more about piquing your interest in graphs, call us on 09 379 6493 or get in touch online.
